Summary

M.S. graduate in Aeronautics and Astronautics from National Cheng Kung University (NCKU), with hands-on experience in satellite attitude control, embedded systems, and hardware-software integration. Proficient in C++, MATLAB/Simulink, and embedded platforms, with practical experience in firmware development, sensor integration, system debugging, and hardware validation.

Education

M.S. in Aeronautics and Astronautics 08/2024 – 08/2026
National Cheng Kung University (NCKU)
Research Focus: Control Systems

B.S. in Aeronautics and Astronautics 09/2020 – 07/2024
National Cheng Kung University (NCKU)

Skills

Programming:
C/C++, MATLAB, Python

Embedded Systems:
Arduino, Teensy, Raspberry Pi, Sensor Integration, Serial Communication

System Engineering:
Hardware-Software Integration, System Debugging, Hardware Validation

Projects

2024 CanSat Competition
Gemini Space

Gemini Satellite

Additional Information

Availability: January 2027
